U.S. CARDINALS DELAYED

And Were Not Present at the Deliberations of the Papal Conclave—The Present Pontiff Has Had An Honorable Diplomatic Career.

(ASSOCIATED PRESS TELEGRAM)

Rome, Sept. 3.—Cardinal Giacomo Della Chiesa, archbishop of Bologna, Italy, was today elected supreme pontiff of the Catholic hierarchy in succession to the late Pope Pius X, who died August 20. He will reign under the name of Benedict XV.

The conclave of the sacred college, whose duty it is to elect the Pope, went into session the evening of Monday, August 31. The announcement of the outcome of its deliberations was made this morning shortly after 11 o'clock. Cardinal Gibbons of Baltimore and Cardinal O'Connell of Boston are on board the steamer Canopic which is not due at Naples until tomorrow. They were on their way to attend the conclave. Conservative neither of them participated in the election of the new pope.

The choice falls on a Cardinal of Italian birth, as was expected from tradition and also disturbed condition which mitigated against the selection of a pope outside of the Italian hierarchy.

It was at the age of 24 that the new Pope was ordained in the priesthood. He soon attracted the attention of Cardinal Rampolla, later secretary of state for Pope Leo XIII. When Cardinal Rampolla was made Nuncio to Madrid he took Mgr. Della Chiesa with him as secretary of Nunciature. On Cardinal Rampolla's return to Rome to become secretary of state for the Vatican, Mgr. Della Chiesa entered the Secretariat of State as one of the "minutants" or minor officials, until 1901 when he was appointed substitute of the Secretary and also secretary of the Cyprian. On the accession of Pope Pius X, Mgr. Della Chiesa continued in the Secretariat until December 16, 1917 when Pius X gave him a noted promotion to the position of archbishop of the important See of Bologna.

For seven years he administered the See of Bologna.

Pope's Full Title. The full title of the new Pope in addition to Benedict XV will be Pope, Bishop of Rome and Successor of St. Peter, Supreme Pontiff of the Universal Church, Patriarch of the West, Primate of Italy, Archbishop and Metropolitan of the Roman Province, Sovereign of the Temporal Dominion of the Holy Roman Church.

Cardinal Farley of New York reached here several days ago.

Prince Chigi-Albani, one of the assistants to the throne in the pope's household was notified at 11:15 that Cardinal Della Chiesa had been elected.

At 11:20, Monsignor Micciattelli, sub-prefect of the sacred palace, and governor of the conclave, received a communication from the new pope asking that the gratings of the Basilica of St. Peter be opened, because he purposed in a short time to issue his proclamation.

At this same hour—11:20—the master of ceremonies appeared on the central balcony of St. Peter's and spread out the red carpet. The (Continued on Page 2, Col. 2.)

PARIS

Deserted by President And Cabinet Who Go To Bordeaux

TRANSFER OF CAPITAL A MATTER OF PRUDENCE

HERRICK IS TO REMAIN

People Take Removal of the Government Calmly Realizing the Near Approach of the Germans, and Preparing for What-ever May Happen.

(ASSOCIATED PRESS TELEGRAM)

Paris, Sept. 3.—President Poincaré and his cabinet have left for Bordeaux, the new French seat of government, where they will arrive in the morning.

Two trains reserved for the president and the members of the senate and chamber of deputies left for Bordeaux this afternoon. Fifteen judges of the court of cassation also will be transferred to the provisional capital of France. In addition to the American ambassador, M. T. Herrick, the Swiss minister, M. Lardy, also has decided to remain in Paris.

The population of the capital is taking the departure of the heads of the government calmly, recognizing that it is a matter of prudence.

Although the city generally is placid, the people feel keenly the approach of the German army and they are rapidly preparing for whatever may happen. Many families left for the west today, taking with them household necessities.

Raid by German cavalry, the audacious daily flights of German aviators over Paris are now viewed with curious interest.

The people are quickly accustomed to the sight and they believe that the effect of the bombs thrown from these aeroplanes has been exaggerated.

U. S. EMBASSY STAYS AT PARIS, OTHERS LEAVE

(ASSOCIATED PRESS TELEGRAM)

Paris, Sept. 3.—The diplomatic corps excepting the embassy of the United States accompanies the government to Bordeaux. The American ambassador Myron T. Herrick, has decided to remain in Paris and this course has been warmly commended by the ministers of foreign affairs because the representative of the most powerful neutral government will be able, should the occasion arise, to serve the French as well as his own people. Mr. Herrick's reasons for remaining in substance are that he can better look after the several thousand Americans who stay in Paris. They are principally permanent residents in business or persons of moderate means, unable to leave conveniently. He also feels that he can better protect American business in these parts, among them several American banks and banking agencies with deposits of Americans.

Apprehension Felt in Washington As to the Attitude of Turkey in War

(ASSOCIATED PRESS TELEGRAM)

Washington, Sept. 3.—State department officials admitted today their apprehension over the situation in Turkey. For three days there has not been a single cablegram from Ambassador Morgenthau. As the situation grew acute a week ago, he communicated full details of the diplomatic crisis and kept in constant touch on matters of Turkish interest.

The belief prevailed that cable communication either had been interrupted by censorship on account of the gravity of the political situation. A declaration of war by Turkey is expected in many quarters on Great Britain, though the Turkish ambassador declares he has been without advice for several days and will not predict what course his country will take.

Paris is the Pivotal Point in the West in Greatest Battle Since Waterloo, and Even Its Fall Will Not End the Operations There

ALLIES' RETREATS SERVE PURPOSE OF TIRING ENEMY

By Repeated Assaults and Then Line Up for Final Stand Behind Their Last Line of Defense—Russians in East Report Successes Against Austrians and These Are Generally Credited—British Public Maintaining Stoic Patience in Receiving Belated News.

The Germans are pushing their right wing nearer Paris while their center and left appear to be held by the French. Russia is pressing forward in the Austrian province of Galicia after having taken the strongly fortified capital, Lemberg. The Germans are admittedly victorious in east Prussia.

The Japanese are said to have occupied seven islands near Kiao-Chow and to have landed additional troops within marching distance of that German stronghold in the face of protests by China.

King Nicholas of Montenegro is reported as determined to occupy Scutari.

The governor and other German officials of Samoa have been made prisoners by the British and sent to the Fiji Islands.

The government of France is now established at Bordeaux. The foreign embassies and legations, with the exception of those of the United States and Switzerland have also been removed from Paris to Bordeaux.

The absence of official announcements from the capitals of the belligerents today is the surest indication that the fighting in the east and west continues without decisive results.

(ASSOCIATED PRESS TELEGRAM)
London, Sept. 3.—The battle to decide whether history will repeat itself in a second siege of Paris is still in progress according to the latest official announcement. Future military historians will write volumes about the details of this battle but all the British public knows officially regarding the titanic struggle—the most momentous British soldiers have fought since Waterloo—is contained in one sentence of official report issued last night by the press bureau: "Continuous fighting has been in progress along almost the whole line of battle."

To this generally the French official communication adds the fact that the allied forces have fallen back toward the southwest to avoid an action which might have been engaged under unfavorable conditions. How far and to what line the allies have gone is unknown. There can be no revelation of military secrets, nothing which a patriotic censorship could criticize in stating these facts because the German army which is engaging the allies knows precisely where their first line is drawn and the purpose of the censorship is only to suppress facts which might enlighten the enemy.

The brief official bulletin of last night is the first word the British people have received from their government concerning the present battle.

The last previous bulletin filed was Marshal Kitchener's statement, issued Sunday night, throwing a welcome light on the previous four days' battle which ended Saturday and which reflected the greatest credit on the generalship and discipline of the British army.

In spite of the fact that the French capital has been removed to Bordeaux and that the German army of the west is within thirty miles of the outer fortifications of Paris, a strange air of confidence prevails today among the allies. The general feeling seems to be that the German attack is wearing itself out in hammering away at the allied lines which give but do not break.

President Poincaré has issued a proclamation to his people telling them that military necessity alone has led him to remove his government to Bordeaux.

Military experts agree that Paris will soon be the pivot of the hostile forces operating in the area of the west. Even the downfall of the French capital is not expected to end these operations.

The feeling of confidence was greatly increased by the news of the great victory of the Russians in Galicia. Reports from Petrograd (St. Petersburg) tell of the entry of Russians into Lemberg, the capital of Galicia. These appear credible as news of the defeat of the Austrians in that district has been received from several sources.

The battle of Lemberg was one of the greatest ever fought. Evidently it resulted in a decisive and perhaps overwhelming victory for the Russians.

Germans Plainly Attempting To Envelop Allies' Left Wing, Which is Nobly Resisting

(ASSOCIATED PRESS TELEGRAM)
London, Sept. 3, 1.30 a. m.—The British people continue with stoicism the lack of news concerning the operations of the army on the continent. The government has repeatedly assured the public that all news consistent with the nation's interest would be given out and the people are accepting that assurance.

The French official reports throw further light on the operations than those of the British. The French reports say the action on the front of the northern wing has resulted in checking the Germans for a time.

The inference plainly is that the Germans are employing all their force in an enveloping movement against the allies' left wing. That part of the allied army is retreating to the south and west indicating that the Germans have not yet outflanked them. Apparently the Germans have advanced toward the road to Paris. This is the worst of Belgium, to pour all their forces toward the road to Paris. This is the worst of Belgium, to pour all their forces toward the road to Paris. This is the worst of Belgium, to pour all their forces toward the road to Paris.

The French of Wales fled for the lack of shelter. It is now over \$100,000. Resulting in Great Britain has received impetus from the events of the last fortnight.

Military experts agree that the Germans are unlikely to waste more than a screening body to prevent a serious Belgian sortie against their line of communication. The taking of Brussels probably was a demonstration for its moral effect, but an assault on Antwerp, it is considered would be a side issue with so little effect upon the main plan of campaign that it would be a useless expenditure of men and energy. There may be a strong method in the allies' policy of gradual retreat and compelling the Germans to make repeated costly attacks while the allies keep a compact front before their last line of defenses.

Three million Frenchmen are under arms to defend Paris. They still have confidence in the ultimate result of the war. The list of killed, wounded and missing British officers from the crack regiments which were engaged in the four days' battle of last week brings mourning to many noble and aristocratic homes. This however, is the price of war which the country appears willing to pay.

WORDS OF PRAISE FROM ZANESVILLE

Brighton Woman Tells The World How Nerv-Worth Overcame Her Nervous Troubles.

"This is the first medicine I have ever taken that really does what they say. I have been dead on my feet for four or five months. Since last month I have been hard for me to work at all. Everything seemed to be wrong with me. I didn't eat well or sleep well and I had no energy at all. If I stood any length of time my back felt as though it was going to break and I would have to sit down. My complexion was sallow and I had no life in me. I seemed to be played out. My stomach was in bad shape and my heart would beat rapidly at the slightest exertion or excitement. I came to the store to try this new medicine, Nerv-Worth, and I believe that the first dose helped me. I got a bottle of it in the house. The results ever since and think it is the best medicine on earth. When I think how I felt when I came dragging down town that morning after a bottle of Nerv-Worth words fail to express how thankful I am for the medicine. I shall always keep a bottle of it in the house."

This is the written statement recently made by Mrs. Christy Stiele who lives in the suburb of Brighton, Zanesville. Nothing can be added to it to increase public faith in Nerv-Worth. But to whoever still lacks faith Nerv-Worth is guaranteed. Buy it at the Evans Drug Store, Hotel Warden Bldg.—Adv.

overwhelming defeat of the Austrians. The battle line extended over 200 miles and it is estimated that 1,500,000 men were engaged.

POPE BENEDICTE MADE CARDINAL JUST LAST MAY

Cardinal Giacomo Della Chiesa, who was today elected pope by the Sacred College in succession to Pius X, who died Aug. 20, was created a cardinal May 25, 1914. He is the Archbishop of Bologna, Italy.

He was born at Pegli, in the diocese of Genoa, Nov. 21, 1854, and was ordained a priest Dec. 21, 1878. He served as secretary of the Nunciature in Spain from 1882 to 1887, in which year he was appointed secretary to the late Cardinal Rampolla.

He was appointed substitute secretary of state in 1901, and in 1907 he was elected to the post of adviser to the holy office. In 1907 he was appointed papal nuncio of Madrid in succession to Mgr. Rinaldini, but this appointment was cancelled three days later.

This incident had occurred just before he was made archbishop of Bologna. When Mgr. Della Chiesa was given this post it was declared in Rome that it was mainly with the object of combating modern religious ideas, Bologna being the headquarters of the national democratic league, whose members advocated what is known as "modernism" in religion.

In January, 1914, while still at Bologna, the present pope issued a pastoral letter strongly condemning the tango.

It has been 174 years since the time of the last Pope Benedicte.

On his election to the papacy in 1740, Cardinal Prospero Lambertini, assumed that title. It is an interesting fact that the new pope was archbishop of Bologna while Pope Benedict XIV was born in Bologna.

According to a dispatch from Rome dated at 2:50 yesterday afternoon and received in New York early today, the White Star line steamer Genoa, bearing Cardinals Gibbons and O'Connell to Rome was not due at Naples until tomorrow. Therefore it is probable that neither of these two American cardinals participated in the election of the new pope.

MESSAGE TO CONGRESS ON INTERNAL REVENUE TAX BEING PREPARED BY PRESIDENT

The Special Message Will Probably be Ready for Congress at Early Date.

(Associated Press Telegram.)

Washington, Sept. 3.—President Wilson was at work today on the message in which he will outline to congress the need for a special internal revenue tax to meet the decrease in customs receipts caused by interference to trade with Europe. Congressional leaders have studied the problem for several days, and probably a tax bill will be ready for submission soon after the reading of the message. About \$100,000,000 in war revenue will have to be raised. No agreement has yet been reached by Democrats of the house ways and means committee over features to be covered in the bill.

There have been many suggestions however, for the imposition of a special levy on beer, domestic wines, whiskey, tobacco, railroad and amusement tickets, soft drinks, patent medicines, gasoline and other commodities of that nature.

Vernon sanitarium.

MESSAGE IS FINISHED

(Associated Press Telegram.)

Washington, Sept. 3.—The president finished his address and showed it today to Mr. Underwood.

Mr. Wilson believes the war tax is necessary to keep the treasury in a strong condition and make it unnecessary to call in funds advanced on bonds. He will ask congress to provide for obtaining the \$100,000,000 in a way which will be felt less by the people of the country.

Arrangements were made for joint session of house and senate. Chairman Underwood announced that the ways and means committee would meet Saturday or Monday.

Columbus, O., Sept. 3.—Speeches by candidates for state offices and the United States senate were to be features of Governor's Day Program at the Ohio State Fair today. Governor Cox and Attorney General Hogan were expected to deliver addresses. The agricultural commission also announced that Arthur L. Garford, Progressive candidate for the United States senate, and James R. Garfield, Progressive candidate for Governor would speak this afternoon. Other nominees were expected to attend the fair.

With all indications for favorable weather, officials of the fair looked for a good attendance for the day. Early gate receipts were higher than those of the preceding days and trains and traction cars arriving in the city throughout the morning were well filled with visitors.

CONFERENCE ON PUBLIC HEALTH TO BE CALLED

(Associated Press Telegram.)

Columbus, O., Sept. 3.—Representatives of various organizations interested in the improvement of public health have been called together for a conference here tonight by Dr. J. H. Upham, president of the Ohio State Medical Association. The committee will discuss several proposed legislative measures which have been drafted for consideration by the next general assembly.

Suggested legislation includes a revision of the health administration of the state, which provides for full time district health officers; strengthening of the act under which the commission for the blind operates and amendments to the tuberculosis laws providing easier entrance to the Mt. Vernon sanitarium.

BIGGER CROWDS GO TO THE FAIR

Traffic to the state fair at Columbus was rather heavy Thursday morning. Over the steam and interurban roads, the R. & O. carried to full cars from the north and eight from the east. In the neighborhood of a hundred tickets were sold at the local station. The Pennsylvania sold 300 tickets and the Ohio Electric 548. It is safe to estimate that over 1,500 Licking county residents are in attendance today at the annual exhibition of the state.

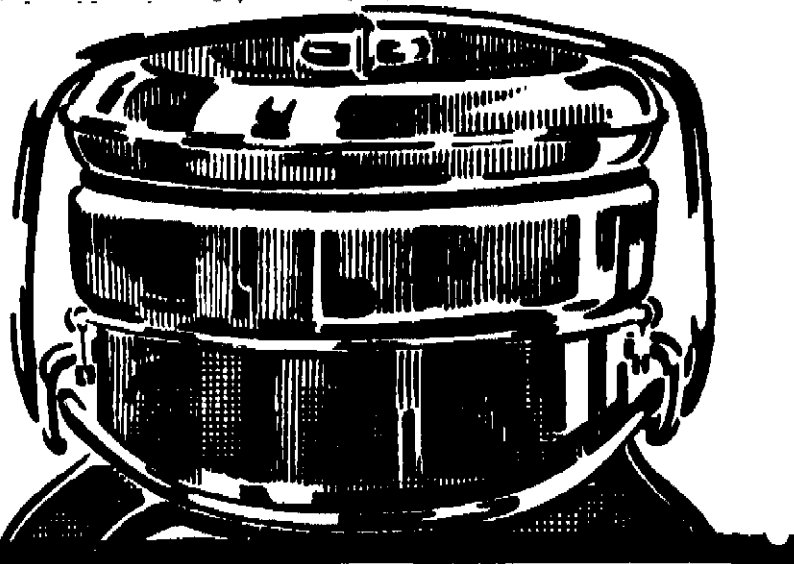

Arrangements were made for joint session of house and senate. Chairman Underwood announced that the ways and means committee would meet Saturday or Monday.

ENCAMPMENT OF G. A. R. VETERANS NEARING AN END

(Associated Press Telegram.)

Detroit, Sept. 3.—The Grand army of the Republic and the several other organizations affiliated with it plucked into routine business today. The principal event of the forenoon sessions was the annual address of the commander in chief of the G. A. R., Washington Gardner, of Albion.

The meetings of the Grand Army's woman's relief corps promised to last until late in the afternoon. Matters of interest to the old soldiers, included a movement to establish national headquarters in a large city, possibly Washington.

Fresh vegetables every day in the year!

How would you like that, madam? How would your husband like it? And the children—would they not be a whole lot healthier if you gave them corn, beets, peas, tomatoes, string beans, lima beans, and all the rest of it, as freely in January as in July?

Here's the way to do it: Instead of paying high prices for canned goods—a *huch may or may not be good*—buy NOW, all the vegetables you can afford and preserve them in

Keeps Lit in a Stiff Wind

One thing you'll notice when you light a Safe Home Match is that it keeps lit in a stiff wind.

that you get as much real service from three Safe Home Matches as from five ordinary matches.

Safe Home Matches are absolutely non-poisonous. For that reason alone they should be in every home in America.

The stick is absolutely dry—that is one reason for the superiority of Safe Home Matches. Another reason is, the head is unusually large.

NEW LINE

OF BUSINESS ENTERED UPON BY

UNITED STATES OF INSUR-

ING SHIPS

Expert Underwriter Placed in Charge
of the Enterprise Upon
Bill's Passage.

(ASSOCIATED PRESS TELEGRAM)

Washington, Sept. 3.—With the
establishment of a war risk insur-
ance bureau in the treasury depart-
ment, the United States today was en-
gaged in a new line of business. W.
C. Delaney, an underwriting insur-
ance expert has been placed in
charge of the enterprise, which will
be operated under assistant secre-
tary Peters.

The plan by which the govern-
ment will insure American ships and
cargoes will supplement arrange-
ments recently authorized by con-
gress for the admission to American
registry of foreign built vessels. Ex-
ecutive orders suspending sections
of the old navigation laws under the
registry bill are to be issued immedi-
ately. That is expected to open the
way for several big shipping compa-
nies to place their fleets under the
American flag.

The war risk bureau will insure
American vessels, their passenger
and freight moneys and cargoes
"whenever it shall appear to be nec-
essary."

Stomach Troubles

Due to Acidity.

SO SAYS EMINENT SPECIALIST

So-called stomach troubles, such as
indigestion, wind, and stomach-ache
are in probably nine cases out of ten
simply evidence that fermentation is
taking place in the food contents of
the stomach, causing the formation of
gas and acids. Wind distends the
stomach, and causes that full, op-
pressive feeling known as heartburn,
while the acid irritates and inflames
the delicate lining of the stomach. The
trouble lies entirely in the fermenting
food. Such fermentation is unnatural,
but may involve most serious conse-
quences if not corrected. To stop or
prevent fermentation of the food con-
tents of the stomach and to neutral-
ize the acids and render it bland and
harmless, a teaspoonful of bisulphate
magnesia, probably the best and most
effective corrector of acid stomach
known, should be taken in a quarter
of a glass of hot or cold water im-
mediately after eating, or whenever wind
or acidity is felt. This stops the fer-
mentation, and neutralizes the acidity
in a few moments. Fermentation,
wind and acidity are dangerous and
unnecessary. Stop or prevent them by
the use of a proper antacid, such as
bisulphate magnesia, which can be ob-
tained from any druggist and thus
enable the stomach to do its work
properly without being hindered by
poisonous gas and dangerous acids.

SUCCESS

OF RUSSIAN ARMS AGAINST
AUSTRIA IS UNMITIGATED,
IS REPORT

Victories Thus Far are But Prepara-
tory to Dealing Enemy a
Death Blow.

(ASSOCIATED PRESS TELEGRAM)

London, Sept. 3.—The Petrograd
(St. Petersburg) correspondent of
the Post sent the following on the
operations on the Russian front.

"Russia is scoring successes after
success against Austria and news of a
signal victory is imminently ex-
pected."

"The commander in chief of the
Austrian army apparently plans to
drive in strongly with one army
from the east, starting from the Rus-
sian provinces adjoining Roumania
and in the meantime merely aims to
restrain the Austrian advances into
the Polish provinces, thus keeping
Austria on the alert along the line
of two to three hundred miles. While
pushing temporary advances in
south Poland the Russians were
forcing their way westward from
Podolia and Bessarabia upon Lem-
berg. When the Austrians finally
realized these plans they attempted
to turn the Russian left flank near
Halic near the junction of the Gnila
Lipa river with the Dniester, and a
sanguinary fight took place there two
days ago. The Austrians were sig-
nally defeated losing 5,000 killed and
many prisoners including one gener-
al, 32 guns a standard and quanti-
ties of supplies."

Apparently the progress of the
southern Russian army from Podolia
in Galicia has been a series of lights
on an increasing scale until a third
river, known as the Poul Lipa was
reached.

"The fight for the possession for
the valley of the Poul Lipa was se-
vere. The Austrians had realized the
strength of the Russians and had
strongly fortified a naturally formid-
able position. This was carried ob-
stinate fight. The Austrian force a
whole army corps lost about half
of its strength."

"These actions occupied the Rus-
sian left, her right still being in
Russian territory, it is evident that
all the actions were part of a con-
certed movement which with the sur-
rounding of Lemberg as its objective
thus dealing a death blow to the
Austrian defense."

**For Sallow, Itchy,
Rough or Greasy Skin**

"Some skins require constant groom-
ing to keep them from becoming oily,
itchy, rough or greasy, or if such
condition has developed, to overcome
it. In such cases it is particu-
larly inadvisable to keep piling on
cosmetics when the pores collect
dust and dirt, making the complexion
worse than ever. It's a lot more sen-
sible to use ordinary mercurized wash,
which literally absorbs a bad complex-
ion. Apply the wash, like cold cream,
before retiring at night, morning, in
washing it off, you'll wash away fine,
fine-like particles of the unsightly
filth. Repeat for a week or two and
you'll have a entirely new skin—
soft, satiny, smooth and beautiful as
a child's. One ounce of mercurized
wash, available at any druggist, is
all you'll need."

If the skin be wrinkled or flabby,
here's the best possible remedy: Mix
one pint warm water and one ounce
dried sassafras and use as a face bath.
It works like a miracle, yet is entirely
harmless.—Advertisement

TWO NEWARKITES

NOT HEARD FROM;

OTHERS ARE SAFE

Mr. and Mrs. J. W. Greffmann of
356 Leroy street this city, who are
visiting relatives in Germany, have
written their son William, that they
are safe in the city of Oberhausen,
but for the present they will be un-
able to leave the country.

They state that they are close to
the fighting lines and that the coun-
try is in a state of terror. However,
they anticipate no danger to them-
selves but would like to get out of
the country. They cannot tell how
long it will be before they can reach
a seaport to sail for America.

Mr. and Mrs. John Siegel of Leroy
street, who sailed with the Greff-
manns from New York on June 16,
left them after arrival for a differ-
ent part of Germany. Not a word
has been heard from them by mem-
bers of their family, but that is
probably caused by a delay in mails
being forwarded. The Siegels op-
erated a bakery on Leroy street and
during their absence it is being op-
erated by a daughter.

It is probably better to stand on your
own dignity than to sit on the dignity
of others.

**PASSENGER PIGEON
DIES AT THE ZOO**

With the death of the passenger
pigeon at the Cincinnati Zoological
Garden the species becomes extinct.
For six years it has been known that
this lone pigeon, a female thirty years
old, was the last one of her race.

Eleven species of North American
wild birds have been wiped out of ex-
istence by man. Twenty-three other
species are rapidly diminishing and
some are approaching the vanishing
point, but the idea of bird conserva-
tion, through the activities of the
National Association of Audubon So-
cieties is fast becoming popular and
may prevent the extermination of
other species, saving to the world
those remnants that would otherwise
be swept away as has the wild or
passenger pigeon.

CASINO AS SPY

(ASSOCIATED PRESS TELEGRAM)

London, Sept. 3.—11:06 A. M.—
A letter received in London, by an
American woman from a friend in
Monte Carlo contains the following
passage:

"M. Kurz, one of the four directors
of the Casino and who has been very
much trusted here and also has an
estate agency at Beaulieu has been
arrested as a spy. Also reports of
plans were found on him, and with
others he is imprisoned in Nice
awaiting trial."

"The casino is closed."

BALAKLAVA

RECALLED BY CHARGE OF

NINTH LANCERS IN RECENT

TACTICAL RETREAT

Correspondent Behind the Lines De-
scribes Their Ride Into
German Guns.

(ASSOCIATED PRESS TELEGRAM)

London, Sept. 3.—3:40 A. M.—
The Daily Mail's correspondent be-
hind the British lines describes the
charge of the Ninth Lancers, which
occurred at an unnamed spot during
the recent tactical retreats as a second
Balaklava. He says:

"Terrible havoc had been caused
in our ranks by shells from a battery
of eleven German guns posted inside
a forest near to the Belgium front-
ier."

"It seemed impossible to silence
their fire until the Ninth Lancers
made their attempt riding straight
at the guns after debouching into
the open and charging under a hail
of melinite and lyddite."

"I have not been able to get reli-
able figures as to the distance rode
but they reached their goal."

"Nothing could stop them. They
reached the guns, killed the gunners
and put the guns out of action."

"On the return they fell in great-
er numbers still from the attack of
the other German batteries, posted
at vantage points around the valley."

"Notable bayonet charges were
made at (name deleted) on Wed-
nesday last. Several British infantry
regiments occupied an exposed po-
sition around which the Germans
gradually circled, drawing the noose
closer and closer."

"The Britishers decided to cut
their way through the cordon. So
the men went at it, yelling and
shouting, and got through, although
the German artillery mowed them
down frightfully."

"The German machine-guns have
been tremendously effective in all
engagements thus far."

PAINFULLY HURT;

HIS MOTORCYCLE

WAS HIT BY CAR

Mr. Allen G. Oakley, Associated
Press operator at the Advocate of-
fice was painfully injured and his
machine badly damaged when an in-
terurban car struck the motorcycle
he was riding at the corner of Pine
and Maholm street on Wednesday
evening.

The 5 o'clock car was coming in,
and Mr. Oakley was making the turn
when the car struck him. Probably
the fact that he jumped saved him
from more serious injury. The car
carried the machine quite a distance
and rolled the rider from the track.
Mr. H. Cosner dressed his injuries
which consisted of a number of seri-
ous bruises.

Cleveland, O., Sept. 3.—The Iron

"The iron trade is coming to a real-
ization that many benefits of a sub-

will in the case of some products, be
severe. Hence there is considerable
pessimism as to the near future.
Prices are, however, being firmly

important remains unshaken."

Will You Help?

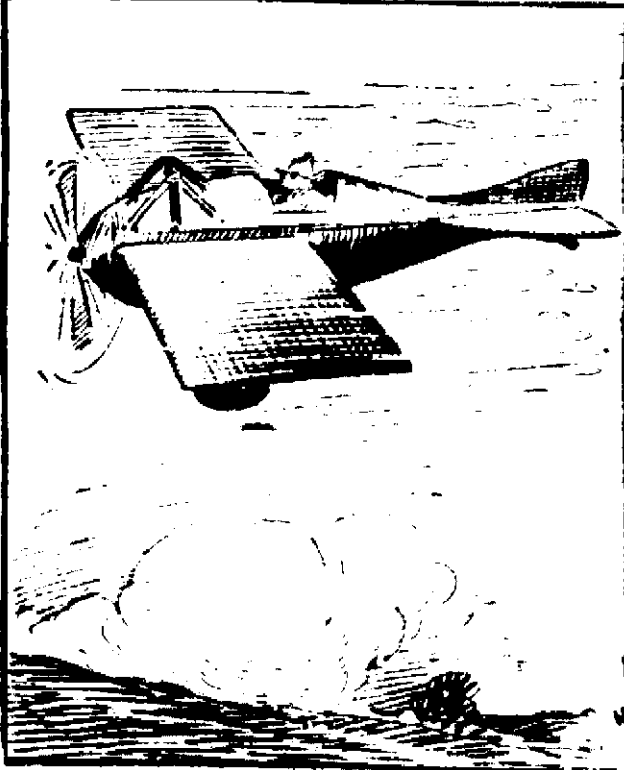

The one great organization that is bringing relief to the almost countless injured men on Europe's battlefields is the Red Cross. Its task is enormous and results will be in proportion to the funds at command. Many cities are now raising subscriptions for the Red Cross—the splendid organization founded by Florence Nightingale and Clara Barton—and Newark should do her share. Remittances for the Red Cross may be sent to the Advocate. Acknowledgment will be made through these columns and the money will be forwarded promptly to the proper officials.

Food Supply.

A wholesaler of grain was asked a few days ago, what was the effect of war on his business. He said it was much like the case of a man who had had a large and plentiful succession of highballs. Everyone in the trade was flushed and excited. Consumer is bidding against consumer, forcing the prices up against each other.
He predicted, if the war continued, that very high prices on food stuffs would be seen before spring. But he would not advise the average consumer to buy ahead of his needs at present prices.
It is certainly a tremendous misfortune that war comes just as the autumn season is starting. Were it spring, a campaign could at once be organized to persuade farmers to plough up and seed down every available acre. Every man with a back yard could be urged to grow some kind of food supply.
There is a plenty of food for our people, and something to spare. Many feel that the doors should be closed against exports while prices are high. Also that liberal exportations will tend to prolong the war. Still, if exports are shut down, the women and children and other non-combatants of Europe would be the ones who would feel the pinch first. The soldiers will be fed at any cost. While there will be no famine here, the necessities of life may cost very high before spring. Poor people will suffer. The public will do

The Tragedy of Belgium.
Smaller than Maryland, but with a population nearing 8,000,000, Belgium was the most densely peopled country in the world. Centuries of thrift had made its soil an incomparable garden; its huge industries exacted great imports of food. Antwerp stood, perhaps, second to New York in the bulk of its commerce. Generations of skilled architects had enriched the doomed land with cities whose beauty was the despair of emulation. To call the roll of towns like Bruges, Ypres, Louvain, Ghent, Courtrai is to bring up visions of pictured beauty familiar to the world. To call another roll beginning with Waterloo and Oudenarde is to name Belgium as the cockpit of past wars; but to give Europe a buffer state for peace, its neutrality for the future was guaranteed by treaty. Having little faith in the false oaths of emperors, the Belgians taxed industry to sustain an army of a quarter of a million soldiers and reserves.
That was Belgium. Today it is a ruin. * * * Future ages will dilate upon the heroism of Belgium in this year of anguish. Today the world surveys the tragedy of Belgium—the saddest tragedy that has befallen the Low Countries since the days of the Duke of Alva.—New York World.

A Suggestion.
Food prices in Germany are reported to be moderate, not as a result of factionalism by sellers, but because of rigid supervision and punishment of combiners. In the United States, on the other hand, food prices are high. Perhaps a following of the German policy would make a change.—Pittsburg Dispatch.

NAPOLEON.

If great Napoleon's shade looks down from some red star, on mighty hosts arrayed for stern, decisive war, he'll see so many traps untried in his day, that he will groan, perhaps, and leave a sigh, and say: "Great Scott! Had I possessed such implements as those, how quickly I should have knocked my foes! Ah, those quick-firing guns—magnificent, sublime! They scatter tons and tons of hardware at a time! And see those soldiers fly, on boiler-plate wings! They soar up to the sky, and drop their bombs, by jings! Alas, in all my wars I rode a spavined steed, but now, in motor cars, the generals proceed. When messages I sent, a soldier here the same, and tomes as he went, shot fragments from his frame; but now this wireless scheme sends messages afar; it all seems like a dream, and not a bit like war. My soldiers used to slay, with sword and spear they bowed; but now in half a day, they kill a multitude. Alas, I think with tears, of my brave, trusty ones, who fought with rusty spears and muzzle loading guns. The modern fighter knows no weary toil, I ween; he sizes up his foes and kills them by machine. Had I been thus equipped for but one simple hour, I surely should have stripped all captains of their power."

Sidelights on the Great European War

Nearly 2,400 American refugees reached New York yesterday from Europe.

Uncle Sam's marine war risk insurance bureau designed to inspire confidence in American shippers and aid American trade expansion, is now open for business.

Former Governor Herriek of Ohio has taken charge of the archives and embassies of all the belligerent powers in Paris and while the French government is located at Bordeaux will remain in Paris. Jno. W. Garrett will represent U. S. interests in Bordeaux.

"While this great war is without real provocation or excuse there are historical explanations of it that involve nearly everything that has happened in Europe for more than a hundred years," says September Review of Reviews.

The peace congress at Antwerp was held in August, 1894, just 20 years ago.

The attitude of the British prime minister, Herbert Henry Asquith, has gained the support of an almost unanimous public opinion and has brought all factions and elements to the support of the English government.

Japan's leaders in the present crisis are Count Okuma, premier, Count Okuma, minister of war, and Vice Admiral Kuroki, commanding the home fleet.

The Franco-Prussian war lasted about six months, the Russo-Japanese war of 1904-5 continued for about 18 months, but as nothing like the present struggle has ever occurred, predictions are useless.

In none of the Napoleonic wars were there more than a million men actively engaged in campaigns at any one time. In Europe today several millions of men are now under arms, marching, seeking battle or actually engaged in battle. The losses of life in the Napoleonic wars were terrific, but in these days modern guns and explosives were unknown. Rapid fire machine guns in use today mow down men much as a scythe would cut wheat, some of the guns firing 600 shots a minute. Then, too, the warfare in the sky is playing an important part.

Rectifying the difference between former and modern methods, today's Cincinnati Enquirer observes that "we may easily foresee a thousands deaths in this war to a hundred in Napoleon's time." At Bordeaux in one day, between 70,000 and 80,000 were killed or wounded out of the 257,000 engaged, and that with the weapons of over a century ago. At Austerlitz, with 165,000 men engaged, there were over 40,000 killed or wounded. At Jena and Auerstadt (close together and same day) there were 34,000 killed or wounded out of 238,000 engaged.

H., was compelled to cross a car loaded with logs, which he alleges were improperly loaded. He states that he slipped and the logs rolled causing the dislocation of his right knee, the tenders being torn and that his knee cap was fractured, as a result of which he is permanently injured.

Granville

(Special to The Advocate)

Granville, Sept. 3.—Misses Cornelia and Endora Speller were hostesses at a delightful luncheon yesterday afternoon at their home in Elm street, honoring the charming bride-to-be, Miss Ada Chrysler. The affair was cleverly planned and the afternoon was agreeably passed in working out the amusing stunts provided by the hostesses, one which was rich in ideas was the dressing of clothespins to impersonate the characters in the bridal party, wedding procession, etc., as the guests sat around the dining table. Among other things was the "doctor's telephone"—questions one would ask the physician on one side of a card; those one would ask the doctor's wife on the other. A delicious luncheon was served, many pretty gifts were showered upon the bride and it was a merry company which wished her happiness. Those present were: Mrs. Lottie Grandstaff, Lloyd of Girard, O.; Mrs. Abbie Geach Woodbury, Miss Shirley Black, Miss Addie Slack, Miss Mamie Geach, Miss Mildred Hunt, Miss Rachel Jones, Miss Betty Jones, Miss Ruth Hopkins, Miss Esther Nixon, Miss Beas Howe, Miss Albert Chrysler, the hostesses and their honor guest Miss Ada Chrysler.

Mrs. C. L. Williams will be the guest until tomorrow of Miss Elizabeth Morris in Columbus.

Centerville street enjoyed a picnic and reunion of former residents yesterday on the school house grounds. The affair, under the efficient direction of Mr. E. F. Hobart, was a success from every point of view. No better dinner was ever eaten than the one spread at the old school house, which has been called the exact geographical center of this state.

Mr. and Mrs. Charles Watkins have gone for a week's outing in their cottage at Buckeye Lake.

TAXICAB HIT A WAGON, EGGS WENT IN ALL DIRECTIONS

North Sixth street was bedstrewn with uncooked scrambled eggs on Wednesday evening, when a machine driven as a taxicab by Mr. Ned Cramer struck the delivery wagon of Mrs. J. Ponsart, commission dealer. Forty-five dozen eggs were reduced to omelet.

The driver for Mrs. Ponsart, W. A. Osborne, was driving south on Sixth street, and was on the right side of the street, when the machine of Mr. Cramer struck the wagon. The driver was thrown out into the adjoining yard, and received a number of minor bruises. The wagon was filled with eggs and produce for a trip to the west end, and it was ruined. The wagon was badly damaged. Mr. Cramer assisted the driver and reported the accident to Mrs. Ponsart.

MAY PROVE FATAL.
Backache is only a simple thing at first; But if you find 'tis from the kidneys; That serious kidney troubles may follow; That dropsy or Bright's disease may be the fatal end; You will be glad to know the following experience.

T. B. Smouse, engineer, R. F. D. No. 2, Hebron, Ohio, says: "The constant jarring I received and exposure to bad weather in my work, affected my kidneys and caused my back to get very weak. Doan's Kidney Pills soon benefited me, and I have always kept a supply in hand since."

NO ARMY

THAT EVER EXISTED COULD SURVIVE THE TERRIBLE LOSSES OF THE GERMANS.

In the Opinion of a Correspondent at the Front Who Writes of the Battle.

(ASSOCIATED PRESS TELEGRAM)
London, Sept. 3. (3:11 A. M).—The Chronicle's correspondent at the front writing from an unnamed town in the department of Somme, Tuesday, says:

"The superiority of the British artillery coupled with the pluck of the British infantry, is rapidly telling on the German attackers. A few more days such as Sunday and Monday, and the German army invading northern France will have destroyed itself completely."

"No army that ever existed could endure and survive the terrible losses sustained by the Germans in the last few days."

"Whole divisions of infantry have been blotted out and shattered, and the German ranks are beginning to show demoralization. In the latest assault the Germans manifested unmistakable signs of unsteadiness, were seen to waver and frequently to break and flee in confusion. As a result of this prolonged battle the German line has advanced a few miles, but has not gained any marked or decided advantage."

GERMAN ADVANCE AMAZING ALL; ALLIES CONFIDENT

(ASSOCIATED PRESS TELEGRAM)
London, Sept. 3.—The Daily News correspondent wiring from Gournay-en-Bray, a small town near Rouen, says:

"The German advance is amazing. A great battle is raging with what result I know not, but I do know that the French and British armies are intact and still confident of ultimate success. Incredible as it seems the tremendous masses of men that the Germans have hurled at the allies have not overwhelmed them. It seems that while the Germans have the weight the allies certainly have the wit and science and these, with reinforcements, will eventually win."

"General Pau had fine success but in the center and left center the allies were not so successful, being obliged to retire. As a result of Sunday's battle the Germans now occupy—name of town deleted by censor."

The Spell of The Dance

Is On

From coast to coast—from the mansions of the rich to the less elaborate abodes of the poor—the lively, swirling, insinuating, spell weaving music of the times is demanding expression in physical rhythm.

To the young and old alike, modern popular music is alluring—inescapable. It seizes and dominates and lifts us into a world of delicious excitement.

Let your home tremble with the radiant, joyous rhythm of music. Place a piano or a player piano in your home.

Let the Boys and Girls and their Friends Clear the Floor and Swirl to their Hearts' Content.

It will keep them at home. It will free them from the association and influence of less favorable meeting places, and provide them with the means of clean, healthful enjoyment. If you have children, young or grown up, you could add nothing more to complete their happy lives than a good piano or player piano.

One of our Pianos is worthy of a conspicuous place in your home.
